

BODYBILT

Fore-Aft Neckroll

The Fore-Aft Neckroll reinforces BodyBilt's commitment in providing the greatest variety and adaptability in ergonomic seating for the seated worker. This stylish neckroll has been designed to provide ergonomic support of the neck with maximum adjustability.

Standard Features:

- New dual pivot design allows user to set the neckroll in an unlimited number of positions
- Depth adjustability up to 3½" forward or back or can lock at a zero-degree angle
- Slightly contoured neckroll is 2" deep and 12½" wide
- Twist-locks into position for a sturdy hold
- Strong construction of reinforced plastic with steel fittings
- Molded neckroll foam gently cradles the head while providing support
- Adjustable while seated in the chair
- Easy height adjustment; 3½" range

Optional Features:

- Double-stitched upholstery
- Available in upgraded fabrics, ultraleather, and leather
